TEACHER'S TALK

"Focus on verbs adjectives will follow"

It is an honour and a privilege to be a part of Sarvayog International School.

I'm so excited and honoured to express my thoughts as a part of school,"

"What an amazing opportunity for educators to come together to share their views!" I love when the voices of educators are amplified.

At Sarvayog extension, the growth of each individual student is our focus. We recognize that as we work together and learn together students will be able to achieve best level of their potential. Expectations for and from the students are high. I firmly believe that every girl and boy can achieve success in whatever they do and rise as responsible, resilient and confident young adults, well prepared to take charge of their future and to become a productive member of the community.

I am extremely sanguine and I believe sincerely that a school environment that realizes the strength of all stakeholders and fosters a positive development can make difference in the lives of the students.

This year has been an unprecedented year, as we had to make many changes due to COVID-19 pandemic but what has not changed is our commitment to nurture, support, and educate every student.

At last I want to convey my best wishes to my students and remind them to 'Take small steps every day.'
